If you want a good Cigar, call at Dyer's, north-west corner Sixth and Western Row. Singer's Sewing Machines.-The im-

mense increase in the demand for these admirable machines-it has trebled within four months-indicates the reviving prosperity of the country. The prices of our machines have been greatly reduced. J. Skardon, ag't.

Twenty-cent Pictures taken at the south-west corner Sixth and Western Row. Excelsior is their motto.

Go to Smith's Dining Hall, Vine street, between Fifth and Longworth, if you wish to get a good cup of coffee, or any thing else. J. Trechard's Scouring Establishment

is at 156 Fourth street. Give him a call. We call the attention of the public to our old friends, Coyle & Co., corner of Fifth and Walnut, who have just received one thousand boxes of pure Messina Oranges, which we can recommend, as we have had practical proof of their superior flavor. Any of our friends who require any thing in their line, would do well to give them a call. Remember the northeast corner of Fifth and Walnut, under Cady

& Co.'s fancy store. Charles M. Steele, News Agent, Cincinnati, Hamilton & Dayton R. R., has opened a fine news stand in the Depot, where all the finest literature and reading of the day can be founds also New York and Cincinnati Dailies. Gice him a call.

Messrs, Fowler & Wells, of New York, will reach the city this evening, and on Tuesday evening next commence their Course of Lectures, as advertised elsewhere.

A Splendid Triumph-Inhalation Successful-Superceding all other remedies in Lung and Throat Diseases -- Investigation Chal-

lenged. That most potent and wonderful agent, "Dr. Ayer's Medicated Inhalation," of which we have so often spoken, is creating a revolution in the whole course of treatment in all diseases of the Breathing Organs, and every day brings some new certificate from some highly respectable and well-known source in our very midst. Thousands are directing their attention to the almost miraculous cares which Dr. Ayer is effeeting, and none but those far behind the times any longer express their skepticism. Persons from every section of the country throng the Institute daily, and all confess Dr. Ayer's eminent skill. He is a regularly educated physician, coming from one of the best colleges in this country, but he has the independence and the boldness to step aside from the old beaten path, and to offer to the world a more suitable and potent healing agent than has ever before been presented, and the adherents to this new school of practice are multiplying by thousands daily Dr. Ayer does not boast, or wish to extol his remedies in extravagant language, but the plain fact is before the people, that he offers simple remedies, which have cured and are curing thousands. Those who prefer to die rather than abandon their prejudices-those who are willing to be duped by patent medicine venderscan never know the wonderful efficacy of "Medicated Inhalation;" but those who seek only tenth and health, are invited to call at the "Institute," and investigate for themselves. Such parties as have given letters of high commendation, (and these we are publishing daily,) scorn humbug, and unwarranted pretension, and their testimony should lead every henest mind to renounce old prjendices, and regard with full confidence and favor the system which Dr. Ayer has so successfully introduced into our midst.

A Remarkable Cure of Asthma .-- The following is from one of our best citizens: CINCINNATI, March 11, 1859.

For many years, I had suffered from that most distressing of all diseases, spasmodic asthma, but improved from time to time until last September, when inhalation of the fumes of a match brought on a most fearful paroxysm; and from that time to the hour I placed myself under the treatment of Dr. J. Winslow Ayer, of the Throat and Lung Institute, 30 West Fourth street, the paroxysms increased in frequency and in violence. So painful and afflictive was the disease, that I made but four respirations in a minute, during a paroxysm. For months I had not slept in bed, and the only rest I obtained was in a sitting posture. I was confined to my house most of the time, and such was the violence of the disease, that my life was despaired of. I employed the most skillful physicians, and other eminent members of the profession were consulted, but all to so purpose, except for the present moment. Nothing afforded permanent relief. Although almost despairing, I consulted Dr. Ayer about a month ago, and in less than two days I was able to walk out, and ever since that time I have continued to improve, day by day. I am now able to walk miles with little fatigue, and attend to business nearly as well as I ever did in my life. I have so difficulty of breathing. I can sleep in bed, have no wheezing, and my general health is excellent. Indeed, I am now so far recovered, that I shall soon abandon all medicines, and apply myself to business, with hope and clasticity of spirits. The effect of Dr. Ayer's medicines has utterly astonished me and my former physicians. I am satisfied that Dr. Ayer's Medicated Inhalation will do a thousand-fold more for the cure of Throat and Lung diseases, than all the preparations that have ever before been compounded.

W. H. RANDALL, Residence, Smith street, bet. Fifth and Sixth.

J. D. Park, on the corner of Fourth and Walnut, has the largest stock of Fancy Goods West of New York, which he offers at prices so very reasonable, that it is most certainly an inducement to purchase whether you really want them or not. He also has the agency of various valuable Patent Medicines, to which especial attention is called. Step in and look through Mr. Park's stock. Refer to

We call especial attention to the advertisement of H. P. Elias, who has just returned from New York with a large and beautiful stock of jewelry.

Gas Stoves -- Dr. Musgrave's Invention by which domestic affairs, in the cooking line, are conducted on economical and scientific principles, truly stamps its author as a benefactor of woman-kind.

See advertisement of a Lot of Ground on north side of Dayton street, east of Freeman, to be sold Thursday, March 17, by Cooper & Stokes. This is high ground, and the most desirable building site in the north-western portion of the city. The introduction of street railways, which must soon take piace, can not fail to advance greatly the value of this prop-

## LATEST BY TELEGRAPH.

Arrival of the North Britain.

PORTLAND, MAINE, March 11 .- The steam ship North Briton, from Liverpool, with dates to Wednesday, the 23d uit., has arrived here. Her advices have been anticipated by the Arabia. The North Britain passed, a few days ago, the steamship City of Manchester, which sailed from New York on the 2d inst. for Liverpool. The papers by the North Britain bring some

additional items of interest.

Paris letters state that Prince Napoleon was received by an immense deputation of Italians on the 20th ult. He made a speech on Italian affairs which sympathizes with their most ardent wishes. The French Minister of War has contracted for ten millions ration of dried vegetables. A second division of French troops was under orders to march from Algiers to France. It is rumored that Gen. La Morieierre had offered his service to the Emperor in case of hostilities. All the active battalions in garrison at Paris are to be increased, making each regiment 1,500 strong. Prince Napoleon is reported as incessantly instigating the Emperor to war.

AUSTRIA .- Mr. J. Glancy Jones, the American Minister, had had an audience with the Emperor, and presented his credentials. It is asserted that the official dispatches from Cardinal Antonelli to the Cabinet of Vienna, declare that no reception can be accorded to any repre sentative from foreign governments, at all referring to the domestic governments of the States of the Church. Austria is steadily preparing for the defense of her Italian posses-sions. The garrison of Vienna is fully prepared to march at short notice. There is great activity at the arsenal at Venice, where also hospitals and army bakeries have been established. Gunboats have been placed at the mouth of the river Po, and the garrison of Ferrara has been reinforced.

The Sardinian Senate has adopted the bill for a loan of 50,000,000 francs, by a vote of 59

The Prussian Government has issued a circular, alluding to the joint efforts of England and Prussia to preserve the peace, and ex-pressing the conviction that Austria will join n the endeavors for an amicable solution of the difficulties, but declaring that while reserving her action as an European power, she will nevertheless fulfill her duties as a member of the German Confederation.

The Spanish Chamber of Deputies had granted extraordinary credits for strengthening the fortifications at Mahon, Ferrol, and other places. The Italian exiles left Cadiz on the 19th ult., on board of an American frigate, the name of which is not mentioned. One dred Deputies of the Cortes had declared in

favor of free trade in corn and cotton. The Dutchess of Parma has signed a treaty with Austria, authorizing the latter power to occupy all the forts in her dominions with troops in case of hostilities. Trade at Milan

was in a state of complete stagnation.

A large number of troops, deserters from the
Austrian army, crossed the Piedmontese frontier. It is reported that Russia has declared her determination to resist any attempt to pre-vent a union of the Principalities by force.

From Washington.

New York, March 11.—The Herald's Wash-ngton correspondent says: The statement being made up at the Post-office Department its condition, will be completed by Monday, and the President will then determine as to the necessity of a called session, which will be as early as July, should it be determined on.
Although the President will not adopt any

expedient in the way of issuing certificates to contractors, as has been suggested, an existing law obliges the Department to issue certificates of service to contractors at the close of each quarter, and it is upon these certificates the Treasury pays the money. This obviates any necessity for the course suggested, but the large deficiency already existing may induce a called session, and it looks now as if such would be the result.

The Senate has confirmed the following ap-pointments: C. W. Bradley and O. E. Roberts, residing in China, Commissioners under the China treaty to settle claims: Mr. McDuffie California, Superintendent of Indian Affairs; Mr. Downey, Collector at San Pedro, Califor-nia; Peter Wilson, Receiver of Public Moneys at Nebraska; O. Everts, Register of the Land Office at Hudson, Wis.; E. Warren, Receiver at Marquette, Mich.: L. L. Brown, United States Attorney for Nebraska; H. E. McCul-loch, Marshal of the Eastern District of Texas; N. P. Handy, Judges for Occasional Author N. P. Heady, Judge for Oregon; and A. H.

Redfield, Indian Agent for Michigan.

Hon. R. H. Gillett, who has been for a long time connected with the Law Department of the Government, has published an argument to show that the revenues of the Post-office stablishment can be applied after June next to pay for transporting the mail, and for other expenses of the Department, notwithstanding the failure of the Post-office Appropriation

From Easton.

Easton, Pa., March 11.—The Governor and members of the New Jersey Legislature ar-rived here at half-past eleven o'clock, and proseeded on an extra train by the New Jersey Cen tral Railroad. They are the guests of this com-pany. The object of the visit is to inspect the connections, which will soon open a railroad communication between the New Jersey Central and Reading and Harrisburg, by means of the Lehigh Valley, East Pennsylva-nia and Lebanon Valley Railroads, and open a route between New York and the capital of Pennsylvania. The connecting link between Reading and Allentown is to be opened on the first of April,

State of Trade at Philadelphia. PHILADELPHIA, March 11.—Quite of Western buyers are in town, and are buying moderately, some of them old merchants, but the bulk are young houses. Some of the most prudent houses will not sell to such buyers, but from these there are exceptions to the rule. Though the Spring trade with the West will not, of course, compare with the trade of 1857. it will be as large as the average trade of the four or five preceding years.

The Wanderer's Africans. SAVANNAH, March 11 .- The Republican, of this morning, says that a considerable number of the Africans landed by the Wanderer were at Jackson. They were arrested near Albany, in Baker county, and carried back about eighty miles. The reports of the recent occurrences relating to these Africans are very contradictory. It is said that those arrested will be claimed by their owners. Additional from Mexico.

WASHINGTON, March 11. - The Southern which arrived here to-night, furnished New Orleans papers of Saturday. The brig Minititlan, at New Orleans, furnished advices from Tampico to the 26th alt. The Tampico papers manifest considerable alarm as to results of Miramon's expedition, though they consider Vera Cruz in a most perfect state of defense. More than four thousand men, says the Prisma, can be concentrated at Vera Cruz at a moment's notice in case of attack, without including the commands of Generals Leave and Prejo, or the army of Onjaca, numbering one ousand men, now before Orizana.
All counted, the Liberals have for the defense

the city about 6,000 available troops. On the other hand the Prisma does not think that more than a thousand men could be spared from the cities, which are now held only at the point of the bayonet by the reactionary party, and expresses the opinion that Miramon will have to depend almost entirely upon the army with which he set out for the capital. In the nean time the war is prosecuted with vigor all through the interior.

From New York.

NEW YORK, March 11 .- Yesterday afternoo General Wheat, of Nicaraguan notoriety, and Colonel Canty, of Costa Rica, measured arms ontside of Delmonico's, to the entertainment of between one and two hundred lookers-on. The General broke his cane over the Colonel's head, giving a severe cut, but nothing dangerous re-

Arrested for Libel.

New York, March 11 .- Mr. F. O. J. Smith the chief officer of the Morse Boston Telegraph, was to-day arrested at the suit of D. H. Craig, agent of the New York Associated Press, for libel, and has been held to bail in \$10,000, by order of the Superior Court of this city, to answer the charge.

River News.

LOUISVILLE, March 11-M .- River stationary, with 814 feet in the canal and 63% feet on the falls. Weather showery and windy. Mer-St. Louis, March 11-P. M .- River risen

10 inches last 24 hours, and still swelling. All the upper streams still continue to rise. Weather cool and blustering. Pittsmung, March 11—P. M.—River 1034

feet and falling. Weather cloudy. Departed— Hibbard for Nashville.

ARIZONA,-Says an El Paso correspondent of the Galveston Civilian:

I see the papers are making a great fuss over Arizona. Between you and me the whole thing is a humbug. The celebrated Mesilla Valley I am told, does not contain above twenty thousand acres of good land, if so much, and there is no other valley in the Territory that equals it. Its gold mines are now supposed to be of no real value, and the silver ones are yet an experiment, to be tested by future operations. Of mineral wealth, copper is decidedly the most valuable in the Territory. The Mexicans, in making the Gadsden treaty, knew what they were about; they agreed upon a line which transferred to the United States a territory worthless to them, and of little other value to the United States than as a route across the continent, while immediately below the line there is really a country rich in mineral and agricultural wealth; besides which the only railroad route to the Pacific is still below our present line. Take the explorations made by the United States, and you will see that the valley of the Colorado is below the level of the The intervening mountains can not be tunneled, and there is almost as little prospecof going over them. The depression in the mountains is below, as is evidenced by the fact that the Gulf of California is formed by the drainage from those mountains.

HAUL OF FRAUDULENT BILLS .- A stranger calling himself G. W. Morgan, who had been staying at the Billings House, Keokuk, Iowa, was arrested on Wednesday week, on suspicion of being a dealer in counterfeits. On examining his trunk there was found \$14,000 in spurious bills, of various denominations, on the Farmers' and Drovers' Bank of Petersburg, Ind. There was also found a score of copie of Dye's Bank Note Reporter, in which these spurious notes are quoted at the same rates as other Indiana paper. As Morgan had not attempted to pass any of the bogus money, he was discharged; but on Saturday following (5th) he was again in the hands of the authori-ties, having been taken from the steamer Adelia while the boat was lying at Burlington, by the

Marshal of that city, for having attempted to pass bogus money. Upon searching his carpet sack \$15,000 of notes on the Farmers' and Drovers' Bank of Petersburg, Ind., were found.
The Davenport Gazette adds: "The Gate City says it seems from the pains which has been taken, that a large business was contemplated in the Mississippi Valley. The St. Louis Republican gives an account of the arrest of two of the gang with \$60,000, which, with the arrest made at Keokuk, will probably put a quietus on the operations of that banking company for the present. It is supposed that

but very little, if any, of the money has been put in circulation yet."

A large haul of counterfeit money has been made in the vicinity of St. Joseph. A mysterious carpet-bag, left by a mysterious men, at the house of a farmer, was opened, when son circumstances transpired to cause the mysterious man to be suspected. The contents of the mysterious bag were as follows: 335 gold dollars; 114 gold \$2 50-pieces; 295 half dollars—all of which proved to be made of bogus or spurious metal. There were also 170 \$10 counterfeit bills on the Bank of Commerce, Cleveland, Ohio; six \$10 counterfeit bills on the North-western Bank, at Wellsburg, Va.; twelve \$5 counterfeit bills on Central Bank, Middletown, Connecticut; making the round sum of \$2,717 50, all in counterfeit money. There was also one piece of bogus metal; one roll of gold foil or composition; one large galvanic battery; one small copper funnel; one bottle of silver solution; a three-cornered file, and a package of marking ink found in the sack.

ROAD .- The earnings of this road for January show a great increase over the earnings of December, or of the same month last year. They are as follows: From freights, \$43,346 89 from passengers, mails and express, \$23,383 67; from rents, \$6,192 86. Total, \$72,923 42. The earnings for February show that the increase still progresses rapidly, the total earnings from sources mentioned in January statis-tics being \$68,138 49. An increase is here shown over the preceding month of \$4,784 73, an item which probably no other road in Ohio, at least in Northern Ohio, can equal. ceret of success with this route is the regularity of its trains, seldom, if ever, failing to con-nect at either end of the route. It is probable that one or more lines of passenger steam-ers will be put on Lake Erie, between Buffalo and Cleveland, this season, which will exercise a great influence upon travel in that di-

HE HAS HIS REWARD.—Says the Scioto Gazette: It is understood that Joseph Miller, who has misrepresented this District in Congress for the last two years, is to be appointed Judge in Nebraska Territory, cice Black, who was re-cently appointed Governor. This is his reward for his support of the Lecompton swindle. The people of Nebraska deserve-sympathy.

### MARKETS.

[By Telegraph.]

Philadelphia Market. PRILADELPHIA, March 11.

Flour quiet but firm. The inspections for the week amount to 7,765 brls.; cales of extra family at \$7; superfue and extra family to the trade at \$6.082,756, and fancy lots at \$7.62\footnote{1}{2}658. No change in Rys Flour or Corn Meal. The former is held at \$4.50 and the latter at \$3.75.

Wheat scarce and wanted; sales of Rules of Section 1885.

latter at \$3.75.

# Tis Found!

SOMETHING New, True, Intelligible and Important!

Dr. CHAMBERLAIN Has taken rooms Nos. 1 and 4 in Bacon's Building, corner of Walnut and Sixth streets, and is now introducing his new and important discovery for the curs of the most obstinate chronic diseases. He makes no compromise with the stonisch, in the way of medications, but railes solely upon the most subtle and powerful of all agents,

ELECTRICITY. His recent discoveries in the application of this vitalizing force seldom fall to produce speedy and permanent cure in Dyspepsia, Liver Complaints, Paralyzis or Patsy, Consumption in the early and middle stages, Rheumatism, Neuralgis, Heart Palpitation, all classes of Uterine Discases, Catarrh, Diabetes, Skin Discases, Amaurosis, Deafness, General Debility, and every species of Nervous Chronic Discases.

The diseased should not full to call and examine the astonishing cures effected, frequently in a single Office hours from 9 A. M. to 5 P. M. Consultation free.
Dr. Chamberlain has associated with him Mrs. E.
J. HALL, M. D., of New York City, who has had an
extensive experience in the freatment of diseases
electropathically and otherwise, especially those poculiar to her own sex. Ladies suffering from disease
should not fail to consult Mrs. H.
